

## Tsurumi HS2.75S Pump 3" 0.75Kw 230V Model : HS2.75S

### Descriptions:

The HS-series is a submersible single-phase portable drainage pump. Though it is a single-phase unit, the pump has the durability equivalent to three-phase drainage pumps, since the wear parts are made of abrasion-resistant materials. The side discharge, spiral design allows smoother passage of the sucked solid matters. The shaft-mounted agitator prevents "Air Lock" that tends to take place on vortex or semi-vortex pumps.

### Specifications :

- Outlet Inch (mm) – 3" (75)
- Motor Output (kw) - 0.75
- Phase - Single
- Starting method - Capacitor run
- Free Passage (mm) - 7
- Pump Sizes (mm) - Pump Diameter - 285 / Height - 388
- Weight (kg) - 18.2
