

CSGP-1D

CGP050Y

CSGP-20/QR

CSGP-2N/QR

- This manual type grout pump can be used in pumping cement grout to fill cracks and voids.
- With its size and weight advantage, it is easily portable and able to accomplish tasks where the job is too small to justify sending out an engine-powered grouting rig, or the grout site that is hard to reach with full-size equipment.
